

/s/ Reading Paragraph

Introduction:

When children are learning to say a new sound correctly, we first practice the sound in single word and then in sentences. After that, it can be helpful to have the child practice saying that sound correctly while reading a paragraph.

The paragraph below will help the child practice the /s/ sound when reading.

Instructions:

Have the child read the paragraph below while thinking about her good /s/ sounds. If the child misses one, have the child go back and practice just that word by itself and then say the sentence again.

Paragraph:

Sally was super excited to see her friend Stella. Stella was visiting from Spain. Stella used to go to Sally's school but her family moved suddenly in the second grade. Stella and Sally decided to go swimming while she was in town. They bought snacks to eat at the poolside café and sipped sweet tea in the sunshine. Stella accidentally spilled her sweet tea on her swimsuit so they decided to go back to Sally's house. There was a small stain on Stella's swimsuit so they put it in the washing machine. Then, they set up the living room so they could have a sleepover with their sleeping bags.
