

“ng” Articulation Worksheets

What’s Included:

- Practice sheets for using this sound in words.

How to Use Them:

When the child is learning to say this sound, have the child first practice the sound in isolation (by itself without any other sounds) and then in nonsense syllables (combine the sound with different vowels).

Once the child has mastered that, he can start practicing the sound in single words. Start Have the child say the words on the worksheet after you. Once he is able to do that consistently, point to each picture and ask “what’s this?” an have him say the words on his own.

Once the child can say all of the words on the worksheet, have the child say the words in phrases (like “my ____” or “I see ____”. Then, once he’s mastered that, he can move onto saying the words in full sentences that he makes up. Just ask him to use each word in a sentence.

The Next Step:

Once the child is able to produce the sound easily in sentences, you can start working on the sound in structured conversation.
