

2, 3, 4– Syllable Words Articulation Worksheets

What's Included:

- Practice sheets for saying words with 2, 3, or 4 syllables

How to Use Them:

If the child is having trouble saying all parts of multi-syllabic words, start with the worksheet that has 2-syllable words. Have the child say the words on the worksheet after you. If needed, clap once for each syllable in the word so he hears both parts. Once he is able to do that consistently, point to each picture and ask “what’s this?” and have him say the words on his own. Then, do the same with the other worksheets in this pack.

Once the child can say all of the words on the worksheets, have the child say the words in phrases (like “my ___” or “I see ___”). Then, once he’s mastered that, he can move onto saying the words in full sentences that he makes up. Just ask him to use each word in a sentence.

The Next Step:

Once the child is able to produce the sound easily in sentences, you can start working on the words in structured conversation.
