

### **First/Then Board:**

This simple board will help a child understand what must be completed before he/she can earn the reward. Place this page in a plastic sheet protector and then write or draw what you want the child to do in the first box. Write/draw what the child wants in the second box. Say "First \_\_\_\_\_, Then \_\_\_\_\_" while you show the child the pictures. Once he completes the first task, offer the reward from the second box.

**First/Then Board (with 5 trials):**

This simple board will help a child understand what must be completed before he/she can earn the reward. Place this page in a plastic sheet protector and then write or draw what you want the child to do in the first box. Write/draw what the child wants in the second box. Say "First \_\_\_\_, Then \_\_\_\_" while you show the child the pictures. The circles at the bottom will allow the child to visually see how many trials he must complete before earning the reward. As he completes the five trials of the first task, check off or fill in one circle. Once all five circles are completed, offer the reward from the second box.

**First**

**Then**
